Annual Loft Visit Check Sheet

Most Importantly

Vaccine: Probably best to purchase vaccine from an online pharmacy so that you have proof of purchase. Shows are usually too busy to be able to provide proof of purchase. The only permissible vaccines are Colombovac PMV and Nobilis Paramyxo P201.

If using your mobile phone or tablet

1. You will need to photograph your most recent vaccination certificate - so that it shows your name address, date vaccinated, brand of vaccine, batch number, expiry date, witnesses and ring numbers.
2. You will need to photograph proof of purchase of the vaccine e.g purchase invoice.

If using a computer

1. You will need a scan or photo file your most recent vaccination certificate - so that it shows your name address, date vaccinated, brand of vaccine, batch number, expiry date, witnesses and ring numbers.
2. You will need a scan or photo file of proof of purchase of the vaccine e.g purchase invoice.

Planned visit date (if known):

	Category	Number of pigeons
8	Total number of pigeons in the loft =	
9	Stock birds - do not fly out =	
10	Old race birds =	
11	Young birds and late bred =	
12	How many did you sell, loan, donate or breeder buyer =	
13	How many did you purchase, were given, or borrowed =	
14	How many died or had to be killed in the loft =	
15	How many were lost training and racing =
